Focus on Veggies

It's easy to eat more vegetables! Eating vegetables is important because they provide vitamins and minerals and most are low in calories. To fit more vegetables in your day, try them as snacks and add them to your meals.

1. Choose vegetables rich in color

Brighten your plate with vegetables that are red, orange, or dark green. They are full of vitamins and minerals. Try acorn squash, cherry tomatoes, sweet potatoes, or collard greens. They not only taste great but are good for you, too.

2. Check the freezer aisle

Frozen vegetables are quick and easy to use and are just as nutritious as fresh veggies.

3. Stock up on veggies

Canned vegetables are a great addition to any meal, so keep on hand canned tomatoes, kidney beans, garbanzo beans, mushrooms, and beets. Select those labeled as "reduced sodium," "low sodium," or "no salt added."

4. Savor the flavor of seasonal veggies

Buy vegetables that are in season for maximum flavor at a lower cost.

5. Vary your veggies

Choose a new vegetable that you've never tried before.

**Build a Healthy Plate
with Vegetables!**

Vegetable Tips

Buy vegetables that are easy to prepare. Pick up pre-washed bags of salad greens and add baby carrots or grape tomatoes for a salad in minutes.

Buy packages of veggies such as baby carrots or celery sticks for quick snacks.

Use a microwave to quickly "zap" vegetables. White or sweet potatoes can be baked quickly this way.

Vary your veggie choices to keep meals interesting.

Try crunchy vegetables, raw or lightly steamed.

Select vegetables with more potassium often, such as sweet potatoes, white potatoes, white beans, tomato products (paste, sauce, and juice), beet greens, soybeans, lima beans, spinach, lentils, and kidney beans.

Prepare more foods from fresh ingredients to lower sodium intake. Most sodium in the food supply comes from packaged or processed foods.

Quick Tip! Use herbs or no-salt spice mixes instead of salt, butter, or stick margarine to season vegetable dishes.

Vegetables

Chef Louie Presents...

**Health
Bite**

Sweet potatoes are a rich source of fiber as well as many vitamins and minerals including iron, calcium, selenium, and they're a good source of most of our B vitamins and vitamin C. One of the key nutritional benefits of sweet potatoes is that they're high in an antioxidant known as beta-carotene, which converts to vitamin A once consumed.

According to the Guinness Book of World Records, the world's heaviest sweet potato weighed a whopping 81 pounds and 9 ounces!

**Did you
know**

**Lunchtime
Joke**

Why shouldn't you tell a secret on a farm?

Answer:
Because the potatoes have eyes and the corn have ears.
