

# Future 5th Graders

## Summer Work

### Reading

Read at least one book in your reading level and be ready to take an Accelerated Reader test on it when you return to school in August. You are encouraged to read as many books as possible during the summer. Lay out by your pool, in your backyard or at your camper and get lost in a good book! :) I would love to hear about the books you read when you return to school in August!

### Math

If you are not proficient with all of your multiplication and division facts then you must practice them over the summer. You may do the IXL in 4th or 5th grade that has multiplication and/or division facts, or play multiplication or division games on your personal device or practice with flashcards. You will struggle greatly with 5th grade Math next year if you do not know all of your multiplication and division facts.

**Enjoy your summer, I can't wait to see you in 5th grade in August!! :)**
