

GRADE 2 SUMMER READING AND MATH

Next year we will continue using Accelerated Reader (AR) at Holy Family School. Please find an appropriate level book for your incoming 2nd grader. You can use the LEXILE score that was on their Spring MAP scores. **I am requiring your child to read 1 AR book this summer and take the AR test on it when we arrive back to school in August.** You can go on arbookfind.com to see if a book is AR.

One of the 2nd grade goals is for the students to memorize the addition and subtraction facts up to 20. Your child needs to practice their facts for 15 minutes a week. He/She can do this by using flashcards, websites, dice, playing cards, etc.

Have a fantastic summer! I'm excited about working with you next year!

Mrs. Connie Brzezniak
